

MicroMD® PM (Practice Management)

A proven, full-featured practice management system, MicroMD PM offers scheduling, patient information, billing, integrated clearinghouse solutions, advanced reporting and much more. Based on more than 25 years of innovation it's easy for staff to learn and scalable enough to support changing practice needs.

MicroMD PM also presents a unique value proposition. As an affordable, practical choice, it's an investment that yields demonstrable return. Today, MicroMD PM serves thousands of physicians in organizations ranging from solo practitioners and large multi-specialty groups with multiple locations to MSOs, billing services and community health centers.

Manage Appointments with Ease and Precision

MicroMD PM makes scheduling easy and gives physicians, nurses and staff the flexibility they need to manage patient visits smoothly. Before, during and after each appointment, MicroMD PM's robust scheduling features boost staff productivity and patient satisfaction.

Capture and Manage Patient Data Efficiently

From referral tracking and task management to prescription histories and medical alert information, the system provides a complete picture of each patient with fast access to the functions you use most frequently. Users have the ability to scan drivers licenses and health insurance cards using OCR (Optical Character Recognition). OCR technology electronically reads the license or insurance card, and extracts the data (address, subscriber information), so that your staff will not have to key it in.

Leverage Intelligent, Integrated EDI Solutions

MicroMD PM gives practices, health centers and billing services fast, fully integrated claims submission and management capabilities through our Preferred Clearinghouse Providers, ECP, Gateway EDI, RealMed and Practice Insight.

Each preferred clearinghouse is fully integrated with MicroMD with purchase options priced 15-25% below standard rates. Clients will appreciate coordinated enrollment, setup, implementation, training and support.

Version 7.5

Comprehensive, Award-Winning Practice Management Software

CLIENT TESTIMONIAL

"We will never, ever go back to that old system. MicroMD PM reporting is good, which allows us to quickly and accurately see where the money is. The front desk collects a high-percentage of co-pays and deductibles, our billers go after denials, and the collectors consistently go after unpaid patient accounts. The physicians are happy with MicroMD PM, and the billers have been enthralled. MicroMD PM is a major factor in allowing us to collect at nearly double the national average for cardiologists."

**Steve Stratton, Executive Director
Premier Heart Association**

Simplify Billing and Accelerate Payment

MicroMD PM streamlines billing operations, putting both patient financial overviews and transaction details at your fingertips. All charges, payments, write-offs, adjustments, refunds, aging and encounters related to a given claim are easily accessible in MicroMD PM. For inquiries, billers simply double-click a payment line to drill down into greater detail.

MicroMD PM was ranked in the top 5 for the Practice Management category (Other Revenue Cycle Solutions) in the 2010 Top 20 Best in KLAS Awards: Software & Professional Services report. www.KLASresearch.com

Gain Operational and Financial Insight

MicroMD PM gives you access to the key indicators you need to monitor service delivery, discover potential trouble in billing, or simply save time on repetitive reporting tasks. Advanced reporting is one of the primary reasons why MicroMD PM consistently ranks among the top practice management systems in the nation. Hundreds of dynamic reports in MicroMD PM can be filtered and sorted so finely that your practice will rarely need to customize.

- Dynamic management, financial and administrative reports
- RBRVS Reporting
- Hundreds of standard reports

The screenshot displays two windows from the MicroMD PM software. The top window, titled 'Appointment - 1 - SMITH, DONALD W for the Week of (May 20, 2007)', shows a weekly appointment grid for the week of May 20, 2007. The grid lists days from Sunday (5/20) to Saturday (5/26) and times from 9:00 a.m. to 12:45 p.m. in 15-minute increments. The grid is color-coded to show appointments, with 'CANFIELD' appearing in several slots. The bottom window, titled 'Billing Inquiry: 1001.0 SMITH, ANTHONY I.', shows a patient's financial summary. It includes a table with columns for 'Plan Set', 'Patient', 'Insurance', and 'Total', with values such as 5.44, 389.66, and 395.10. Below this is a table of services with columns for 'P', 'B', 'Service', 'Procedure', 'POS', 'Description', 'Diag', 'Fee', 'Balance', and 'Total'. The services listed include 'OFFICE VISIT-NEWPT DETAIL', 'EKG', 'CBC w/ DIFF', 'PAYMENT MEDICARE', and 'WFO MEDICARE'. The bottom of the window shows a list of transactions with checkboxes and dates.
