MEANINGFUL USE AND ATTESTATION KEY POINTS
CORE, MENU SET AND CLINICAL QUALITY MEASURES

Meaningful Use and Attestation – Key Points

To Qualify for the Incentive....

There are **15 Core Measures** that you will be required to report on. There are an additional **5 Menu Set Measures** that you will choose from a list of 10. The additional 5 are also required.

Within the first required 15 Core Measures, number 10 is the reporting on **Clinical Quality Measures** to the CMS. There are 44 total Clinical Quality Measures. Eligible professionals must report from the table of 44 clinical quality measures which includes, 3 Core, 3 Alternate Core, and 38 additional CQMs.

- Core CQMs - EPs must report on 3 required core CQMs, and if the denominator of 1 or more of the required core measures is 0, then EPs are required to report results for up to 3 alternate core measures.
- EPs also must select 3 additional CQMs from a set of 38 CQMs (excluding the core/alternate core measures). It is acceptable to have a '0' denominator provided the EP does not have an applicable population.

In sum, EPs must report on 6 total measures: 3 required core measures (substituting alternate core measures where necessary) and 3 additional measures. A maximum of 9 measures would be reported if the EP needed to attest to the 3 required core, the three alternate core, and the 3 additional measures.

They are as follows:

CQMs: Core Measures

Note: It is required that eligible providers report on all 3 core measures

NQF 0421 / PQRI 128: Adult Weight Screening and Follow-Up

NQF 0028: Preventative Care and Screening Measure Pair

*0028(a): Tobacco Use Assessment

*0028(b): Tobacco Cessation Intervention

NQF 0013: Hypertension: Blood Pressure Measurement

CQMs: Alternative Core Measures

MEANINGFUL USE AND ATTESTATION KEY POINTS CORE, MENU SET AND CLINICAL QUALITY MEASURES

Note: It is required that eligible providers substitute one Alternative Core Measure for every Core Measure where the denominator is 0.

NQF 0024: Weight Assessment and Counseling for Children and Adolescents

NQF 0041 / PQRI 110: Preventive Care and Screening: Influenza Immunization for Patients $\geq$ 50 Years Old

NQF 0038: Childhood immunization Status

CQMs: Additional Quality Measures

Note: It is required that eligible providers also select 3 additional CQMs from the list of 38 shown below (this excludes the core and alternate core measures). It is acceptable to have a '0' denominator provided the EP does not have an applicable population.

NQF 0001: Asthma Assessment

NQF 0002: Appropriate Testing for Children with Pharyngitis

NQF 0004: Initiation and Engagement of Alcohol and Other Drug Dependence Treatment: (a) Initiation, (b) Engagement

NQF 0012: Prenatal Care: Screening for Human Immunodeficiency Virus (HIV)

NQF 0014: Prenatal Care: Anti-D Immune Globulin

NQF 0018: Controlling High Blood Pressure

NQF 0027: Smoking and Tobacco Use Cessation, Medical assistance: a. Advising Smokers and Tobacco Users to Quit, b. Discussing Smoking and Tobacco Use Cessation Medications, c. Discussing Smoking and Tobacco Use Cessation Strategies

NQF 0031: Breast Cancer Screening

NQF 0032: Cervical Cancer Screening

NQF 0033: Chlamydia Screening for Women

NQF 0034: Colorectal Cancer Screening

NQF 0036: Use of Appropriate Medications for Asthma
